Jacopo Maio

Product Designer

Senior Product Designer | 7+ Years Experience | High-Scale B2C, B2B & SaaS Platforms

jacopo.maio@gmail.com | My Linkedin Profile | My Website Profile

Professional Summary

Strategic Product Designer with over 7 years of experience delivering user-centred digital solutions for global platforms, including high-traffic e-commerce systems serving **10M+ users**.

Proven track record of driving measurable business growth, notably achieving a **14% conversion uplift** through data-driven UX.

Expert at **translating complex SaaS research** into strategic design decisions; recently spearheaded a research initiative that served as a key differentiator for the sales team, resulting in **securing two major enterprise clients** within two months.

A **collaborative** leader skilled in scaling design maturity, ensuring accessibility compliance, and **bridging the gap** between user needs, technical feasibility, and commercial success.

Key Skills

UX & Research:
User Discovery, Usability Testing, User Interviews, Journey Mapping, Persona Development, Hypothesis-Driven Design, Qualitative & Quantitative Analysis, AI-Driven UX Solutions.

Tools & Tech:
Figma (Expert), Adobe, Hotjar, GA4, Miro, Webflow, Hotjar, Jira, Dovetail.

Platforms:
iOS, Android, Web (Desktop/ Mobile), SaaS, B2B & B2C Ecosystems, Cross-Platform Design.

UI & Interaction Design:
Design Systems Scaling, Atomic Design Principles, High-Fidelity Prototyping, Accessibility (WCAG 2.2 Compliance), Responsive & Adaptive Design, Micro-interactions, Wireframing, Visual Design Governance.

Methods & Process:
Design Sprints, A/B Testing, Workshops, Agile Methodology, Stakeholder Management, Design-to-Dev Handoff, Design Documentation, Mentorship & Team Collaboration.

Professional Summary

Info

Cortex | SaaS, Fan Data Platform | London, UK
Product Designer
July 2025
Currently working

Key Details

- UX partner research that served as a primary catalyst in securing two major client contracts within a two-month window.

- Led full-lifecycle UX/UI initiatives for a complex web application, transforming user research into wireframes and interactive prototypes to ensure seamless developer handoff and technical alignment.

- Co-maintained the core design system while architecting "Cast," a bespoke design system that streamlined cross-functional workflows and ensured visual consistency across the product suite.

- Redesigned the platform's Password Policy and security architecture, significantly enhancing product reliability and user trust; these improvements became a key competitive advantage that helped win enterprise-level clients.

Skills Obtained

Fans Gamification | Figma Make | Design Team Collaboration | UX Research Clients & Partners | Complex UX Solution | AI UX Research | Windows App

---

Info

Reed Online | EdTech & HRTech | London, UK
Product Designer
Nov 2021 - Feb 2025

Key Details

- Optimised mid-funnel performance by spearheading a strategic redesign of the primary product card, resulting in a 14% conversion uplift validated through rigorous A/B testing and behavioural data analysis

- Directed comprehensive user research initiatives including deep-dive interviews, surveys, and session analysis to define product roadmaps and translate complex user pain points into actionable B2B/B2C design strategies

- Pioneered the integration of AI-powered personalisation features, significantly boosting user engagement metrics and average session duration through tailored, behaviour-driven interfaces

- Orchestrated cross-functional collaboration with Product Management, CRM, Engineering, and Marketing teams to ensure design alignment with global campaign goals and overarching business KPIs

- Architected the UX analytics ecosystem, leveraging Google Analytics and Hotjar to establish a hypothesis-driven design process that accelerated iteration cycles and validated design ROI

Skills Obtained

AI Design Integration | Build Design System | A/B Test | Close collaboration with Dev team | Stakeholder Communication | UI & UX Data Focus | Quantitative & Qualitative Research

---

Info

mmob | FinTech | London, UK
Product Designer
Jul 2021 – Sep 2021

Key Details
